Subject: Sequence search request RUSH...

Jeff or Christina, please approve this RUSH. It's a 2 on my amended docket.
The RUSH approval needs to be sent directly to **O'Bryen, Barbara**

Hi Barbara,

I have another request for a score over length search:

I need a length limited nucleotide sequence search of SEQ ID NO:3 in USSN 10/008,789, where the returns are rank ordered based on the score over length/ratio as we've discussed. I need the lengths limited to hits between 8 and 50 nucleotides, and I'll take as many hits as you can import into excel (64,000?), and alignments for anything above .75 on the above ratio. Hope this is clear, please call me if it's not. I also need the interference databases searched .
